- Use “recycled” paper plates, napkins, cups. If we don’t get the dishwasher fixed or renewed. Green
- Only allow Rev. Pete to make announcements in church – teach people to read the blue insert. Church starts at 10:15 because announcements take so long. If people want to make announcements have them show up at 9:45 and make them then.
- How can we have smaller footprint – conserve resources.
- Do announcements after children go to Sunday School classes
- No announcements in church – we can read!
- A more professional web-page
- **Serve Coke at coffee hour**
- **Better snacks for kids**
- Coke at coffee hour or any type of soda
- Use less paper products
- **Fix falling down trellis around spotlight at front of church,** (there was a photo on the flip chart sheet that was hanging in the vestry).

Items in **red and bold** were starred which means they are considered a high priority in the opinion of someone in the congregation. Items in **purple** were starred **more than once!!!**.
